Good Morning Everyone!

We recently signed an MOU with Ring Doorbell to have access to their Law Enforcement portal. The next step in the process is to have lead department stakeholders participate in a 45 minute webinar with a Ring representative to familiarize ourselves with the portal and its capabilities. Afterwards, Ring will send out a representative to conduct in-person training sessions with our assigned personnel who will be accessing the system. I would like to set up the webinar in the main Detective Bureau Conference Room for **Thursday August 15th at 10:00 am**. I will follow-up with a calendar invite and provide the necessary details to Ring so they can build you into the system prior to the webinar. If you cannot attend, please let me know who you would like to send in your place. If you have a Windows based laptop feel free to bring that with you during the webinar as it may be beneficial as we navigate through their portal. Let me know if you have any questions. Thanks!
